SOCIOLOGICAL JOURNALS AND PERIODICALS: A SELECTED  
INTERNATIONAL RESEARCH BIBLIOGRAPHY

PREFACE

In the intellectual world, the compilation and publication of a research bibliography is not generally considered as a scholarly enterprise. In my personal opinion, such works are best judged in terms of their usefulness and service to the research scholars who need them. My primary objective in compiling this selected bibliography on sociological journals and periodicals is to achieve that goal.

The present bibliography contains nearly 250 selected research journals and periodicals in the field of sociology published throughout the world. The entries in the bibliography, arranged in alphabetical order, are by no means definitive, nor are they meant to be, but they represent many of the old and current publications which may be used as guides for submitting research manuscripts for publication consideration and also for many other purposes. An attempt is made to include the following information in each entry when applicable and available: name of publication, sponsoring organization, language used in text, year first published, frequency of publication, annual subscription rate and subscription address, name of editor, name and address of publishing company, and special features including reviews, book reviews, charts, indexing and/or abstracting services which include the publication.

A number of persons deserve my thanks for their help with this compilation, without whose cooperation this work would not have been possible. I especially wish to thank Mrs. Hershel Marks for typing the bibliography and also for the editorial assistance and Mrs. Mary Vance, Editor, Council of Planning Librarians, for her encouragement and financial support of the project. The sole responsibility for any errors and/or omissions is mine.

It is my hope that those engaged in various aspects of sociological research will find this guide a useful and informative instrument.
